DINNER DEDICATION

John M. Howard, MD, born on August 25, 1919, is Professor Emeritus of the Department of General Surgery at the Medical College of Ohio. His distinguished surgical career spans several decades. He has received many awards, from The Legion of Merit in 1954 by President Eisenhower for surgical research in the Korean War to a Special Award by the Department of Transportation in 1998 for “providing vision that has become our nation’s Emergency Medical Services.”

He has lectured in 80 countries on all seven continents and has operated in 6 continents. This accomplished surgeon has written over 400 journal articles and 12 books primarily on the surgery, disease, and physiology of the pancreas. He was the senior editor of “Surgical Diseases of the Pancreas” for the 1960, 1987, and 1998 editions. His latest book is entitled “History of the Pancreas: Mysteries of a Hidden Organ.” This fascinating book, published in 2002, delves into the early history of an organ that is special to the members of the Pancreas Club. Currently, Dr. Howard is working on a biography of Allen Oldfather Whipple and has visited Iran where Whipple was born and spent his youth.

In honor of his tremendous contributions to the field of pancreatic surgery, we would like to dedicate this year’s dinner to this fine gentleman and surgeon. Please join us on this special dinner dedication on Sunday, May 15, 2005 at the Mid-America Club on the 87th floor of the AON Building on Randolph Street. Cocktails begin at 7:00 PM and dinner at 8:00 PM.
