HOTEL INFORMATION

Hyatt Regency Mission Bay

The Hyatt Regency Mission Bay Spa and Marina is located in the heart of San Diego, Mission Bay. The hotel offers casual elegance in the heart of Mission Bay Aquatic Park with panoramic views and superior service.

Their 429 appointed guestrooms feature Hyatt Grand Beds, flat screen televisions and panoramic views of the Pacific Ocean and Mission Bay. Experience the thrills of their award-winning swimming pools and water slides, take a stroll to the world famous SeaWorld San Diego located less than a mile off property, or relax in the tranquility of our Blue Marble Spa.

To indulge your culinary senses, let the staff serve you in our waterfront restaurant Red Marlin or head over to SWIM and enjoy light fare and cocktails by the pool. The Hyatt Regency Mission Bay strives to provide the highest level of guest service and comfort. From the moment you arrive, the staff will welcome you to our hotel and treat you with unparalleled attentiveness to ensure that every stay exceeds your expectations.

PANCREAS CLUB DIRECTORS

OVERALL LEARNING OBJECTIVES

This program has been constructed by the Program Committee of the Pancreas Club and has been selected from submitted abstracts. The subject matter selected is a cross-section of the cutting edge of surgical practice today. After this activity participants will:

1. Define the definitions and grading systems for managing pancreatic fistula.
2. Understand the principles of immunotherapy and their application in the management of pancreatic cancer
3. Recognize the principles in managing PNETs between 1 and 2 cm in diameter
4. Recognize the importance of non-progression in patients managed with borderline respectable principles and locally advanced PDAC
5. Understand the impact of different treatment on circulating tumor cells and circulating DNA (precision medicine).
6. Explain the role of gene expression profiling in the progression of IPMN to cancer.
7. Comment on the role of imagine in the clinical staging of pancreatic cancer after multi-drug modalities

CME CREDIT

Continuing medical education credits will be provided for this activity.
